DAILY BABES

FAQ Sheet

What is Daily Babes?

DailyBabes.co is a new site that focuses strictly on hardcore pornographic content. Every guy likes porn, but some of us *love* porn... we just don't have an outlet for it. DB provides a platform for the consumption of fresh content against the backdrop of connecting with other dudes who love porn, too. Other sites have tried this, but they always come with a little bit of baggage - guys getting weird in the comments, asking to see other dudes' dicks, content getting stale, etc. Daily Babes hopes to solve that by allowing you to experience porn differently.

That's great and all... but *what is it?*

Right, right, of course. DailyBabes.co does a lot. Every week day, you can expect a *Babe of the Day* - a porn star that we think you'll love to watch. Each week, you get updates with an article pertaining to the adult industry and a video we think you should check out, too. DailyBabes.co also has a forum built in so that you can interact with other users right in the site. If that's not for you, we have a Discord server for the exact same thing. Additionally, and perhaps most excitingly, you can join in for watch parties on Discord and Kosmi each week to watch some of the hottest content online, with guys who just want to hang out, chat, and watch hot chicks fuck. No bullshit, no creeps, just porn.

Oh shit... I'm sold! How much does it cost?

That's the thing - it's totally free and will *always* be free. While it does cost a lot in time and resources to produce content, host the site and the images/video, and moderate the pages, DailyBabes.co thinks it's way more rewarding to provide this community for free. Good porn and great interaction shouldn't cost you an arm and a leg. It shouldn't cost anything at all!
